Miss Louise Best Will Feature at Piano: Mrs. B. S. Hughes Will Be Accompanist

Two of Lexington's most distinguished musicians will present the L. L. Dantzler, contralto and Miss Louise Best, pianist. Mrs. Dantzler will be assisted at the plano by Mrs. Beulah Stillwell

Mrs. Dantzler has been prominently identified with musical activities in Lexington for some time. She has appeared on the Sunday afternoon series in previous years and is heard frequently at other University functions. She has been actively connected with the Mc-Dowell club and has been a mem-ber of the Music committee of the Woman's Club of Central Kentuc-Her beautiful contralto voice has won for her a host of admirers throughout central Kentucky. Mrs. Dantzler is particularly happy in the field of the German lieder and always includes a group of beautiful German songs on her recital

Miss Best is a member of the piano faculty of Transylvania and Hamilton colleges. She was a member of the music faculty at Ward-Belmont in Nashville, Tennessee, for several years prior to her com-ing to Lexington. This will be Miss Best's first appearance on the Sun-day afternoon series and her many friends will welcome the opportunity to hear her.

The program is as follows: I. Sarabande, Rameau; LeCou-cou, Daguin; Valse in E Minor, Chopin; Etude, Opus 25, No. 1, Chopin; Etude, Op. 10, No. 12, Chopin—Miss Louise Best.

II. Der Manderer, Schubert; Der Tod und das Machen, Schubert; Du bist wie eine Blume, Schumann; Botschaft, Brahms - Mrs. L. L. Dantzler.

III. Reflets dans l'eau, Debussy; Minstrels, Debussy; Du bist die Ruh, Schubert - Listz; Spinning Song, from The Flying Dutchman, Wagner-Liszt-Miss Best.

It seems hardly possible that such APPEARED ON an important development in com-SEVERAL PROGRAMS munication as this station should have been located right under the noses, so to speak, of the students for so long a time as it has without coming into more popular notice. Since radio was first under way, experiments have been carried on in the electrical laboratory of the Engineering college, and for nearly Sunday afternoon musicale in five years a short-wave station has Memorial hall, February 26. They been maintained. Many important projects in the radio line have been carried on successfully by Kentuc-ky students. Only last year a microphone, which won national recognition, was developed by senior engineers.

Station W9JL is owned partly by Prof. I. G. Watkins, who has sponsored the developments in radio at the University, and partly by the University. Professor Watkins has furnished a great many parts and has expended a great deal of time and energy on the station, and it is through his efforts that it has gained its present prominence. There are only four licensed student operators, but the station holds interest for practically every

student in electrical engineering.

The station is licensed by the Federal Radio Commission as an amateur station, being carried on for personal interest and without pecuniary aim. It is a 1,000 watt station, which is the most power allowed by the Commission to an amateur station. It operates with one air-cooled tube and plate input from a motor generator set. The circuit is radiated from an antennae called a doublet. This type of station is different from the police short-wave stations in that the messages are sent by the telegraphic key instead of the microphone.

Almost daily, conversations are held with stations in distant corners of the world, particularly Aus-You might wonder how tralia. conversations are carried on with the Dutch, the French, the Chinese, or any other people that speak a different language from our own. This is done with the use of the International Q Signals, in which certain letters stand for a whole sentence in any language. All licensed operators must be familiar with the Q signals. The International code is used entirely in place of the Morse code.

Dean Anderson and Professor Watkins extend an invitation to any student to visit the station, either through curiosity or the desire to send a message to some part of the country or world. It should be very interesting to any one to go in the station room, hear the key clicking and know that a message is being sent through ether from some far distant corner of the

PUBLICATIONS BOARD REORGANIZATION

With the reorganization, last week, of the Board of Student Pubdications a decisive touche has been been dealt campus politics.

President McVey's revision of the Board, becoming immediately operative, will effect three ends, all of them admirable: the centralization of responsibility; the removal of student control, and the placing of All the good looking girls are alcontrol, in the mature hands of those faculty members directly answerable to the administration for the well-being of student publications.

Never again will there be legitimacy in the discontent engendered by cries of partiality and inefficiency. Selection of appointees will rest on qualications, not political favor.

Revision of the Board will not result in added faculty supervision; in all, it will result in lessened supervision. BONNE CHANCE, KENTUCKY!

This afternoon in Atlanta, Kentucky faces Mississippi in its first game of the initial Southeastern Conference tournament. Because of their undefeated season in the conference, the Wildcats have been installed a pre-tournament favorite. Sports writers throughout the than it does to eat spinach. South and supporters of the Big Blue are expecting Coach Adolph Rupp's players to sweep through the meet without any difficulty.

It is not the first time that Kentucky has entered a basketball tournament a decided favorite. The road of a championship team in a net meet is a treacherous one. Detoo much should not be expected other literary genius? of Kentucky. Whether the Big Blue returns to Lexington with the championship or is eliminated in an early round, there can be no reflection on the ability of the players. Kentucky has showed its true mettle by winning 16 of 19 games played this season.

There is little that the student body can do, save to join in the unanimous chorus, "Bonne Chance,

This business of clicking out a column at immutable intervals isn't nearly so easy as the reading of it would suggest-though I shouldn't let myself in for the obvious giggle Seldom is it clicked out, or if it is, the clicking approximates in satisfaction and continuity the staggering rhythm of a 98 cent alarm clock with a broken main spring.

The clock's hands, like ardent lovers, stood there at 12 o'clock awhile ago—seemed to caress each other. But they were not long in saying goodnight. James Cagney, aggressive redheaded movie star whose pugnacious screen roles have made him the idol of the screen fans, is back again in his first picture since he went on a one-man strike last summer. He is just as agressive as ever when dealing with men in his latest Warner Brothers picture, "Hard to Handle," but he goes the way of all flesh in dealing with the spirited Mary Brian, his sweetheart in the picture. "Hard to Handle," is the feature at the Ben Ali theater beginning Sunday.

On the Ben Ali stage The Rollickers will hold forth Sunday, while Miss America On Parade will claim the spotlight Monday, Tuesday, and Wednesday.

Jack Oakie in "Sailor Be Good," finishes his engagement at the Kentucky theater today. screen's version of Jim Tully's fa-mous best seller, "Laughter in Hell," will be the attraction at the Kentucky, Saturday and Sunday, Four acts of RKO big time vaudeville will grace the stage. Warner Baxter and Marian Nixon will begin a three-day engagement on the screen Monday, in "Dangerously Yours."

Rhythmic dialogue and musical conversation are introduced in the United Artists' production, "Hallelujah! I'm a Bum," starting Sun-day at the Strand theater. Al Jolson returns to the screen after three years in this picture, supported by a cast including Madge Evans. Frank Morgan, and Harry Langdon.

Lewis Milestone directed this first of all films whose continuity is made up entirely of rhythmic dialogue. A trial of this type of dialogue was made in a few scenes of "The Phantom President," with George Cohen; the experiment proved popular, and it was decided that a whole film should be made

using it. It is said to speed up the action and the sparkling brilliancy of the lines. It will be interesting to observe the success of this departure from the old standards of screen dealogue.

For the first time in months, the "Dog-Ear" said nothing about football, basketball, or exams. It said HOLIDAY, just like that, but that was in Tuesday's paper. Hope you can withstand the shock.

The chainstores, like all other sigarette vendors, have suddenly forgotten their price of 10 cents per pack for all heretofore 15 cent brands and have returned abruptly to 13 cents each or two packs for two bits. That business should me' for 'it is I,' and then insists brother to the national weather bureau; neither crowd can make up their own minds about /whether cigarettes will rain or snow, or the weather will sell for 10 or 15 cents a pack-I mean-oh, well, figure it out for yourself.

Why not take all this imaginary 'Sports dirt" and fill some of the holes in the campus roadways? The Keyholer was unfortunate enough today to run over an automobile that had carelessly rolled into one of the small pits near "Breck" hall.

Save that extra 15 cents until Saturday, March 4, we certainly will have a Kampus Kat and it'll be a real good one! Ads have begun to sell! Yop; 'tis a surprise; just hold that change and wait for the March Kat.

FAMILIAR FACES

Somebody, we won't say who, asked us if we wouldn't please, please, find out something about Jane Ann Matthews as a very especial favor. so we are now prepared to make our report on our findings—well, at least part of our findings.

We found that, like most other people, she was born a child; she started wrong by being born a girl when her fond parents had hoped for a son and heir...they had even picked out his (her) name, John Rickard Matthews (the name should be pronounced RYE-

This poor little girl who had started life under such big difficulties, grew (in spite of everything) and increased in stature, in beauty and in favor with men, in increasing proportion as named.

When she grew up and came to the University, she forever and unalterably joined her fortunes with those of Kappa Delta sorority. She was sent out into the cold, cruel campus to seek her activities, and was told not to come back without

When she came back, she had acnol key, Strollers, Cwens, Chi Delta on the Athletic Council, Kernel Phi, Eta Sigma Phi, Phi Beta, Ken-representative on the Men's Stu-Phi, Eta Sigma Phi, Phi Beta, Kentuckian staff, and Kernel staff, and her beloved sisters said, "Well done, called "Much Ado," and is beginlittle girl." Oh, yes, and she has been heard to remark that she and Emerson have similar tastes in that they both like Man but not men. tor's note: The columnist and Emerson are all wet.)

Because it is practically impossible to write, or even think, of Jimmie Miner and Joe Reister separaely, they have invaded this column en masse. So we will have two faces to talk about this time.

Jimmie and Joe, or "Pinkie" and "Scotty," as their friends have dubbed them, seem to have decided a long time ago that two heads were better than one, or something like that. One of them never does anything that the other doesn't do The only things about them that aren't alike are their names and their hair-"Pinkie's" being a sort pink - lemonade color, 'Scotty's" is a shiny black.

They are both independent as to fraternal affiliations, and both belong to Pitkin club. They are seniors in the College of Arts and Sciences, and are associate editors of The Kernel. Each of them has worked on the Lexington Leader for about two years. Pinkie is president of the Catholic club, and Scotty is permanent program chairman of it: Scotty is publicity chairman on the senior cabinet of the Y. M. C. Since baseball has been dropped, it might be well to divide that allotment between track and boxing. With boxing there is a much better chance to pick up expenses through the medium of the gate

If it is the physical side of itthen track is probably much harder on the average boy than three rounds of amateur boxing. There is danger in any sport, but track often results in permanent injury to the heart.

FRESHMEN BEAT ATHENS IN

By JOE QUINN Coach Len Miller's Kitten bas-

ketball team brought a successful season to a close last Friday night

The yearlings were handicapped by the small playing surface and were not able to show their best form. The play became rough in the cramped quarters although the was going in for a crip....Prexy looked quite unruffled as Huggins Frosh lost no men via the foul

route Both teams battled hard in the first half and although the Kittens missed numerous shots, they had a little the edge and were leading at the half 15-11. Athens came contagious...brown suits at the press bench were worn by Rupp, Len Miller, Will Milward, Neville back in the second period and midway in the half took a two-point lead. From then on it was nip and tuck with first one and then the other team out in front. In last two minutes, Mester and Arnall scored, to cinch the victory for the Millermen.

Every player on both squads figured in the scoring. Hughes with 10 and "Little" McGinnis with 9 It is evident that the Rockne syspoints were high scorers for the night. Mester and Esch led the tem is taking hold at Alabama. Kitten scorers with 8 and 7 mark-

ers, respectively.

During the season, the Kittens scored eight victories and suffered one defeat. They hold wins over Lees college, Cumberland college, Central City Red Devils, Georgetown Frosh, Eastern State Frosh, and Athens Independents. college and Georgetown were de-feated twice. Eastern Frosh won the first contest played here, but the Kittens retaliated last week and reversed the decision on the

Wittenberg Co-eds Having Dates Now; Men Saving Money

Co-eds that formerly spent the evening thumbing through a maga-zine or trying to beat "Sol" have rejoiced at the movement that is taking place on the campus of Wittenberg college whereby a good time can be had by all at little or no cost.

The campus males formerly complained that the biggest drawback in escorting the fair damsels to local spots of entertainment was the lack of funds; so nineteen men, campus leaders, got together and developed a plan that would help bring campus life back to a social

The organization was called "Boost W," whose purpose was to see that college life in Wittenberg would be one that would require unlimited expenses.

With the aid of the local talent these social gatherings were started and all were allowed to attend without cost. Everyone entered into the idea and the "date" has been preserved on the campus for a time, anyway.

Entire Family Goes to College

It is not often that school super-intendents go to Marshall College, and it is still less often when whole families go. But Mr. H. F. Fry defied both the above conventions when he and his family enrolled in the institution this semester.

Mr. Fry, who has been a regular student every spring and summer term for the past three years, enrolls for part-time work only because of the heavy work as school superintendent of Waye county. His eldest son, Julius Caesar, is taking work in teacher's college. Woodrow Augustus, the next oldest, is a law student in the arts college and aspires to be a criminal lawyer, while his wife, Justine, is enrolled in teacher's college. The youngest in the family, Lilly Alberta, follows the family precedent in teacher's

Compulsory Showers

After Gym The fair co-eds at Wellesley think they are clean enough! This outspoken belief was broadcast in a letter to the Wellesley College News protesting against compulsory

"The showers are no good," the letter says. "One spends an uncomfortable five minutes endeavoring to get either the hot or cold water faucet to pour forth something other than ice water. Then the seeker of cleanliness rushes out, gets dressed, and fares forth into the icy blasts of a winter wind, arriving home with the sniffles caused by said blasts contacting a damp body. The crowning straw is that one always has to indulge in further abolutions in order to be presentable

for dinner. "No soap, not enough towels-why should we bother?" say the girls. Those that want to be so inconvenienced should certainly be given the privilege, but the rest of the girls are old enough to take care of themselves. And physical educa-tion would be so much more pleasant if one could be her own judge as to whether or not a shower should immediately follow.

Campus Elections Plan Is Proposed

New York-The student body at Columbia college of Columbia university was expected last week to approve a new method of electing its student officers, proposed by Prof. Joseph D. McGoldrick. The proposal already has been approved by the board of student representa-

The plan, known as "the single transferable vote," which is now used extremely in English and Irish universities, is sought as a cure for the so-called "fraternity deal" system now in vogue at Columbia col-

Under the plan ballots would be marked with numbers in consecutive order designating preferences The total number of ballots would be divided by one more than the number to be elected and to the resultant quotient one would be added

to obtain a quota.

Each candidate who received first choice votes equal to the quota would be elected. All surplus first-choice votes would be distributed among the candidates marked for the second choice. Thereafter the lowest candidates would be successively eliminated and the ballots redistributed to the alternative choices until the number to be elected was
